## AUGUST IS NATIONAL IMMUNIZATION AWARENESS MONTH

National Immunization Awareness Month (NIAM) is an annual observance held in August to highlight the importance of vaccination for people of all ages. NIAM was established to encourage people to make sure they are up to date on vaccines recommended.

Since HIV can make it difficult for your immune system to fight infections, people living with HIV can benefit greatly from vaccines against preventable infections. So immunizations are an important part of health care for people living with HIV.

Did You Know?  
ANOC (Annual Notice of Change) letters will be sent out soon! Contact our office to schedule a plan review.
